What is CELT'S Approach to Research, Implementation, and Integration?

For more than a century, educational organizations have used architects to oversee and manage the "physical" infrastructure in order to build new facilities or retrofit existing ones. Contemporary learning organizations must consider using an IT architect to manage the complexity of researching, planning, and procuring the "digital" infrastructure and integrating it with instructional programs and business management services.

As your IT Architect, CELT serves as an independent and unbiased advisor and thought leader, overseeing the continuous improvements of all aspects of the digital environment. CELT offers you real-time access to cutting-edge research, project advisories, long-range planning, and process change management. We are your partner in Leadership, Learning, and Technology!

Learning Organization Leaders

- Vision
- Mission
- Goals

- Utilization
- Support
- Assessment

IT Architect, Advisor, and Systems Integrator

- Research
- Planning
- Procuremen

- Integration
- Certification
- Monitoring

Lifelong Learning
in a Digital Environment

IT Vendors and Contractors

- Hardware
- Software
- Network

- Communications
- Operations
- Maintenance

CELT can help your learning organization:

- Foster a system of checks and balances
- Triangulate ideas, people, and opportunities
- Build intellectual synergy through teamwork

- Mitigate risks and avoid cost overruns
- Integrate seamlessly with IT vendors
- Reduce strain on valuable personnel
